TENDER LOVING GREED

MARY ADELAIDE MENDELSON

How the
Incredibly Lucrative
NURSING HOME
"INDUSTRY" Is
Exploiting America's
Old People and
Defrauding Us All

Read the 1974 George C. Polk award winning book that started much of the health care debate that we are still fighting. It is just as relevant today as it was 35 years ago.

What is missing from today's debate is the awareness of the causes of just why health care is so expensive. Even Congress displays dismay at the costs, as if they don't know.

Read *TLG* and ask yourself if you can believe that crime and ownership, are no longer problems. Yes, *TLG* is about long-term care, but as *TLG* observed, the crooks were expanding into other areas of health care.

Health care is a \$3 trillion a year industry. Estimates of fraud run from 14 to as much as 25 percent: \$460 to \$750 billion.

Tender Loving Greed, eBook, pdf, 5.5 x 8.25 inches, 279 pages with **2009 Notes**, 53 pages . . . for \$6.95. 7.5 MB—including photocopies of letters from Senator Frank Moss and Val Halamandaris trying to kill its publication.
